Course Descriptions

Secondary Course: Technological Design, Grade 12, University/College Preparation

This course introduces students to the fundamentals of design advocacy and marketing, while building on their design skills and their knowledge of professional design practices. Students will apply a systematic design process to research, design, build, and assess solutions that meet specific human needs, using illustrations, presentation drawings, and other communication methods to present their designs. Students will enhance their problem-solving and communication skills, and will explore career opportunities and the postsecondary education and training requirements for them.

Mohawk College Course: Engineering Drawing 1

Upon successful completion of this course the student will be able to prepare assembly and detail drawings, using a two-dimensional CAD system.

DUAL CREDIT @ HWCDSB

HWCDSB Dual Credit courses and programs are offered through the School College Work Initiative and in partnership with Mohawk College.

Students in Dual Credit:

- Have a chance to simultaneously earn both colleges credits and high school credits
- Experience college level programming while still in high school
- Can earn high school credits that count towards completion of the Ontario Secondary School Diploma
- Can earn college credits that can count toward a College Diploma or Certificate
- Engage in an exciting experience that will help to create a successful transition to college

There is no cost to the student for tuition, transportation, textbooks, or course materials.
